EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Matthew Moscicki on July 12, 2006.

IN THE CLAIMS

Claim 47 has been changed as follows:

47 (Currently Amended) A method of deforming a deformable material strip having a width between two edges, the method comprising:

- (a) positioning a first portion of the deformable material strip in a deforming position between two deforming members, the two deforming members being movable relative towards each other to first relative position to deform a deformable material strip and being movable relatively away from each other to a second relative position;
- (b) deforming the portion of the deformable material strip at said deforming position along a first direction across the width of the deformable material strip;
- (c) moving the two deforming members to the second relative position and forwarding the portion of the deformable material strip from the deforming position; and
- (d) repeating the series of deforming and forwarding a plurality of times;

wherein during the deforming, one of the two edges of the deformable material strip is compressed more than the other of the two edges of the deformable material strip such that the deformable material strip is curved in a plane substantially ~~perpendicular~~ parallel to the first direction ~~and such that a cross-sectional shape of the deformable material strip is substantially maintained;~~

wherein the difference in compression between the two edges of the deformable material strip is non-linear across its width.
